OIL-TECH: Your Trusted Valve Solutions Partner

Since 2004, OIL-TECH has been delivering reliable valve and automation solutions to industries worldwide. As a representative and stocking distributor, we go beyond supply — offering full assembly, testing, and tailored packages designed to meet your exact requirements.

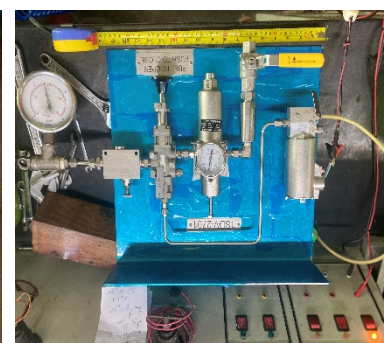

With access to a wide range of product lines, we ensure you receive the best-fit solutions for every application, backed by our technical expertise and commitment to service excellence.

What We Offer

- Complete range of valves: Ball, Gate, Globe, Check
- Automated valve systems with actuator control packages
- Instrumentation components: pneumatic/hydraulic valves, solenoid valves, pilot valves, limit switches
- Fluid handling solutions: hydraulic/air hoses, seamless tubing
- Custom fabrication: stainless steel pneumatic & hydraulic panel enclosures
- Control solutions: panels, bug screens, control logic design packages
- Offshore services: painting, valve testing (API 598), and specialized product sourcing

Why Choose OIL-TECH

- One-stop solutions: From sourcing to assembly and testing
- Tailored support: Packages customized to your project needs
- Trusted expertise: Decades of experience in oil & gas, petrochemical, and process industries
- Partnership focus: Building long-term relationships through reliability and service excellence
